ORDER:

Andhra Pradesh is one of the 1st State in the Country to declare all its 110 cities and towns free from Open Defecation (ODF) and most of the towns are currently facing a large burden of untreated faecal waste entering the environment due to indiscriminate disposal of Septage (waste evacuated from pit latrines and septic tanks periodically) by private gulpers causing significant public health and environmental risks. The problem is particularly acute in towns and cities that abut rivers and large water bodies. To achieve the vision of Swachh Andhra Pradesh, Government have declared that all Urban Local Bodies would achieve ODF plus through safe management of Faecal Sludge and Septage by 2nd October 2018. This initiative is aimed to achieve safe and sustainable sanitation provision for all leading to public health and environmental benefits.

2. Accordingly, Government have approved a policy and operative guidelines for safe management of Faecal Sludge and Septage Management (FSSM) in Urban Local Bodies vide G.O.Ms.No.134 MA&UD(UBS) Dept., Dt.31.03.2017 by aiming to regulate provision of toilets, safe collection, treatment and disposal of faecal sludge and septage in urban areas in the State. The Urban Local Bodies are also advised to licence desludging operators and they are being trained to follow safety standards through Protective Personal Equipment (PPE). To achieve ODF++ status in the State, the Faecal Sludge Treatment Plants have to be established in all the 76 Non-Amruth ULBs in the State priority basis. The National Green Tribunal is also closely monitoring on the Solid and Liquid Waste management in the State.

3. During the review meeting held on 27.09.2019, the Hon'ble Chief Minister has instructed to continue the projects with the support of Government of India/Government of Andhra Pradesh funds, so as to achieve ODF++ status in the State. Accordingly, an Express of Interest (EoI) was floated for establishment of Faecal Sludge Treatment Plants in certain ULBs, for which Swachh Andhra Corporation has conducted a pre-bid meeting on 05.02.2018 and there was good response and over 28 reputed companies shown interest to participate in the bid processing. Based on the overwhelming response, and inputs given by the companies, Swachh Andhra Corporation has floated Request for Proposal (RFP) immediately for setting up of Faecal Sludge Treatment Plants (FSTPs) in 76 non Amruth Urban Local Bodies (ULB) in the State on Design, Build, Operate & Transfer (DBOT-Hybrid Annuity Model) basis duly dividing the said project into 7 packages/clusters, to roll out the projects to become ODF to ODF Plus. In turn, the 5 Agencies have submitted their bids.
